Our philosophy is simple and straightforward: A stove from RAIS has to be more than just a heat source. It has to combine aesthetics and technology. Form and function. Design and craftsmanship.

We call our philosophy Art of Fire. We do so, because RAIS stoves have it all. They are efficient heat sources, utilizing the energy of the fire optimally, as well as streamlined design objects - sculptures, integrated in your home.

RAIS stoves are also eco-friendly heat sources, ensuring efficient combustion at even a low burn rate. They are able to draw in combustion air from the outside, in order to provide a better indoor climate.

And there is a RAIS stove for any home and any decor. From castle to cabin. From nostalgia to modern minimalism. Take your pick!
STOVES

RAIS STOVES ARE SPECIAL
They stand out. From the crowd. And in your home.
The RAIS Viva L series is in a league of its own. Circular, smooth and beautiful, it is a true proponent of the elegant and minimalist. The large glass door practically creates the impression of an open fireplace and allows you to enjoy the fire to the max.

What makes the RAIS Viva L stoves truly unique is the customizable design. Choose between glass or steel door, different colors and two heights to create your personal favorite.

We call it Customized
AWARD-WINNING DESIGN FROM RAIS

The RAIS Viva L series has won the internationally acknowledged Red Dot Design Award 2017. The series won for its customizable design which can be adapted to match any home, style and interior. Choose between for example different heights and colors, doors in glass or with steel frames, and handles in various designs.
RAIS VIVA L 100 - nickel
Available in wood and gas
There is no doubt about it. The kitchen is the true headquarters of the Danish company, SkagenFood. This is where the house chef, Jacob Andersen, invents, creates and tries out the delicious recipes for the meal subscription boxes which the company delivers to homes and families throughout Denmark.

The kitchen also forms a creative setting for Jacob Andersen’s social media videos for foodies, and his cooking - and his beautiful kitchen - travel online to far away places. Consequently, nothing was left to chance, when the kitchen was designed and decorated.

The chef chose the RAIS wood-burning stove Viva L in the color nickel to create a cozy and homey atmosphere in the kitchen. The nickel colored stove came to define the rest of the kitchen, as the kitchen cabinet doors were painted in the exact same shade.
This configuration is available in gas.
Light a fire with a green conscience! RAIS Q-Tee 2 C stands out as one of the cleanest burning non-catalytic stoves available. C stands for Curved and refers to the beautifully curved glass door and rounded sides. Choose between an all glass door or door with steel frame.

For more base options see page 26
At the centre of “Sølvhuset” (Silver House) in the woods stands a Q-Tee 2. A spot where many others would have placed a TV. Instead, a minimalist Q-Tee was put there – precisely to underscore the simplicity, and to draw attention to a vibrant and warm focal point in the living room. With a steady hand, designer Bruno Jacobsen has produced a style that creates tranquillity by way of its clean lines. Note the firewood shelving, which, together with the stove, becomes an element of design in its own right.
With eco-friendly, cubic RAIS Q-Tee 2 you can have it your way. Different base options change its look entirely and allow you to create a stove that matches your interior style. Choose between an all glass door or door with steel frame.

For more base options see page 29
RAIS MALTA

A true masterpiece of stove design offering optimal combustion and a range of excellent features including an optional turntable and soapstone topplate.
RAIS Gabo combines aesthetics and functionality in a clean, contemporary design. It offers a unique cool handle, optimal combustion control. Add the optional turntable or soapstone top as a unique finish.
Clad in beautiful, gray soapstone RAIS Bando retains the heat and emanates a comfortable and even warmth long after the fire is merely embers.
Lose yourself in the glow of the fire! RAIS Rondo is nothing less than a modern design classic with a beautiful extra-large glass pane door. Comes with a soapstone baking plate as standard. Add the optional turntable or soapstone top as a unique finish.
GAS FIREPLACES
RAIS Viva L Gas comes standard with a safety screen.
Did you know that you do not have to choose a traditional woodburning stove to enjoy a flickering fire? Our brand new freestanding gas stove, RAIS Viva L Gas, creates the exact same cosy atmosphere and gives you an authentic fireplace experience.

Turn the fire on and off immediately with a flick of a button, and adjust the size of the beautiful flames as well as the temperature with the remote.

RAIS Viva L gas stove series is iconically round and offers an extended view of the flames – just like RAIS Viva L for wood.

Both stoves are customizable allowing you to design your own. Choose between two different heights (100 & 120 cm), three different colors and optional side glass...

The RAIS Viva L Gas comes standard with a safety screen.
RAIS VIVA L 120 GAS

RAIS Viva L 120 gas stove series is iconically round and offers and extended view of the flames – just like RAIS Viva L for wood...

The RAIS Viva L Gas comes standard with a safety screen.
ENJOY A MOMENT OF PEACE

The stove comes with legs, with or without storage.

RAIS Q-Tee 2C gas, glas door

RAIS Q-Tee 2C gas w/legs, glas door

RAIS Q-Tee 2C gas w/storage, glas door
RAIS Q-TEE 2C GAS

RAIS Q-Tee 2 C Gas beautifully rounded corners and an expansive curved glass door. Choose between several base and leg options and door designs to add a personal touch.

The RAIS Q-Tee 2C Gas comes standard with a safety screen.
With its sleek, cubist design – RAIS Q-Tee 2 Gas is cool, understated elegance with a distinct urban twist. Comes with several base and leg options.

The RAIS Q-Tee 2 Gas comes standard with a safety screen.
The stove comes with legs, with or without storage.
ACCESSORIES
This simple hanging frame for firewood frees floorspace. Note the luxurious details in the corners, which are joined using both dowels and tenons. Oak oiled in natural or smoky nuances. Turn it any way you like. Can also be placed on the floor.

WxDxH: 15,7” x 12,2” x 31,5”
Please enjoy the combination of fine details, luxurious materials and practical simplicity. And try just how uncomplicated it can be to carry in the firewood! With Woody!
RAIS BUTEO

Poker, broom and shovel with a holder in an organically shaped design. Mount it on the wall or place it on the floor on a concrete base. Choose between handles in stainless steel or leather.

H: 21.2”

RAIS TETRA

Fireplace tools in a raw and minimalist design that combines steel, iron and concrete. Place it on the floor or mount it on the wall. Choose between handles in stainless steel or leather.

H: 22”
With stainless steel shafts, black silicone handles and a matching black holder, the fireplace tool set, Wall tools, is pure minimalism. Can be mounted on the wall or placed on the floor on a concrete base.

H: 25,6”

RAIS CONSTANT BENCH

Create a cool, industrial style in your home or garden with a weather resistant bench in contemporary gray fibre concrete. Or why not use it as an untraditional base for Rais Q-TEE.

WxDxH: 39,4” x 19,7” x 17,1”

RAIS WOOD RACK

Firewood carefully stacked and kept in place by plain black steel frames creates a rustic and sculptural expression. Turn the rack around and use it as a bench instead. Available in two sizes.

WxDxH: 12,2” x 14,2” x 38,6”
12,2” x 14,2” x 57”
RAIS Woodwall for storing wood is brilliant in its simplicity. Available in two sizes, with or without back plate and in black or white.

WxDxH: 7,9” x 9,8” x 74,8”

RAIS WOODWALL FREESTANDING

Use RAIS Woodwall Freestanding as a room divider or as a sculpture with a practical function. Available in two sizes and in black or white. Add Wall Tools to complete the look.

WxDxH: 7,9” x 9,8” x 47,2”
7,9” x 9,8” x 70,9”
Architect-designed RAIS Carry reinvents the traditional firewood basket and gives it a new and contemporary expression. Choose between black and creme white. Both color variants come with cognac colored leather handles.

D: 17,7”

RAIS LIGHTING

RAIS Lighting offers luxury storage of briquettes in an elegant aluminum design with leather inserts.

D: 5,2”
H: 9”
Create a tranquil escape from everyday life with combined grill and fire bowl Circle in corten steel. Cuddle up in front of the fire, host an informal get-together or prepare a delicious homemade meal. The choice is yours.

Height: 36,6”
Diameter: 40,2”
A sculptural focal point for cosy gatherings and outdoor cooking.

Height: 68"
RAIS SQUARE

Grill and fireplace in one with solid oak sides and room for firewood.

Height: 43”
Grill and fireplace combined in a striking pyramid-inspired design.

RAIS GIZEH

Grill and fireplace combined in a striking pyramid-inspired design.

Height: 76”

RAIS’ outdoor collection is handmade with heart and passion. Good craftsmanship takes time, but the result is worth the wait.

The collection’s gorgeous rusty patina is created by the elements under an open sky – which is why no two products are alike. Every grill and bonfire stove has a unique look.

Find inspiration for how you can create a wonderful outdoor space and gather friends and family around a crackling fire for fun or a delicious meal outdoors.
 RAIS LIGHT CONE

Cone-shaped torch with an oil lamp insert. Available in two heights: 44” and 53”.

RAIS RA

Minimalistic fire bowl that adds ambience to your outdoor living space.

Diameter: 31,5”
The following pages comprise recommendations, specifications and technical data for each of our stoves.

This information is for your guidance only. Before installing your wood-burning stove, we recommend that you read the user manual for the stove and take into account the specific recommendations applicable to that stove.

SPECIFICATIONS

Due to the continuous technical development we reserve the right to make changes without prior warning to specifications, colours and equipment. We are not responsible for misprints or mistakes in text, pictures and specifications.
DANISH DESIGN AND QUALITY

All over the world Denmark is renowned for its strong design tradition and has been so for generations.

At RAIS we are proud to continue the successful story of Danish design. For more than 35 years, the company has designed, developed and manufactured wood-burning stoves, inserts and fireplace accessories that carefully reflect the Danish design tradition of quality, simplicity, craftsmanship and functionality.

Today, RAIS employs a team of approximately 90 dedicated employees within the fields of development, design and production. Every single RAIS stove is carefully manufactured in the northern town of Frederikshavn and is shipped from here to the rest of the world.

**DIMENSIONS (W-D-H)**

| Stove exterior                  | 21 9/16 - 19 31/32 - 43 3/5 inches |
| Firebox interior                | 14 3/16 - 13 15/16 - 14 3/16 inches |
| Log length                      | 14 3/16 inches |
| Pipe diameter                   | 6 inches |
| Distance from center of top exit to the back edge of the top plate | 7 inches |
| Distance from floor to centre of top exit | 46 1/2 inches |
| Distance from floor to centre of rear exit | 35 1/16 inches |
| Floor to center of outside air connector (Ø 4”/100 mm) | 7 inches |

**DISTANCES TO FLAMMABLE MATERIAL**

| Distance to combustible side wall | 13 inches |
| Distance to combustible back wall | 6 inches |
| Corner Clearance to combustible | 5 inches |

To non-flammable wall and at sides and back we recommend 2 inches

**WEIGHT**

| Stove | 507 lb. |

**FEATURES**

| Color: Black and platinum | x - |
| Steeldoor with glass | x - |
| Shaker grate and ash pan | x - |
| Top or rear smoke exit | x - |
| Outside AirSystem* | - x |
| Soapstone topplate | - x |
| Soapstone baking compartment | - x |

* Does not include 4” pipe outside

SPECIFICATIONS STOVES

**RAIS BANDO**

**TECHNICAL DATA:**

**HEAT**

- BTU output: 27 kBTU
- Heat range (min-max): 7-27 kBTU
- Heating capacity (25-68 degrees F): 1500 sq.ft
- Emissions: 4.3 g/hr
- Efficiency: 74%

**DIMENSIONS (W-D-H)**

- Stove exterior: 20 7/8 - 20 1/4 - 42 3/8 inches
- Firebox interior: 14 3/8 - 13 3/4 - 14 1/8 inches
- Log length: 14 3/4 inches
- Pipe diameter: 6 inches
- Distance from center of top exit to the back edge of the top plate: 7 inches
- Distance from floor to centre of top exit: 40 3/8 inches
- Center pipe in top to back edge of stove: 7 1/8 inches
- Floor to center of outside air connector (Ø 4”/100 mm): 6 7/8 inches

**DISTANCES TO FLAMMABLE MATERIAL**

- Distance to combustible side wall: 13 inches
- Distance to combustible back wall: 6 inches
- Corner Clearance to combustible: 5 inches
- To non-flameable wall and at sides and back we recommend: 2 inches

**WEIGHT**

- Stove: 353 lb.
- Soapstone: 77 lb.

**FEATURES**

- Color: Black and platinum
- Steel door with glass
- Shaker grate and ash pan
- Top or rear smoke exit
- Outside Air System
- Soapstone top plate
- Soapstone baking compartment

*Does not include 4” pipe outside*

---

**RAIS RONDO**

**TECHNICAL DATA:**

**HEAT**

- BTU output: 23 kBTU
- Heat range (min-max): 12-23 kBTU
- Heating capacity (25-68 degrees F): 1180 sq.ft
- Emissions: 4.3 g/hr
- Efficiency: 80%

**DIMENSIONS (W-D-H)**

- Stove exterior: 19 3/10 - 19 3/10 - 40 3/5 inches
- Firebox interior: 13 1/5 - 11 2/5 - 40 2/5 inches
- Log length: 13 1/5 inches
- Pipe diameter: 6 inches
- Distance from center of top exit to the back edge of the top plate: 10 inches
- Distance from floor to centre of top exit: 46 inches
- Distance from floor to centre of rear exit: 35 1/8 inches
- Floor to center of outside air connector (Ø 4”/100 mm): 4 3/4 inches

**DISTANCES TO FLAMMABLE MATERIAL**

- Distance to combustible side wall: 13 inches
- Distance to combustible back wall: 6 1/2 inches
- Corner Clearance to combustible: 6 inches
- To non-flameable wall and at sides and back we recommend: 2 inches

**WEIGHT**

- Stove: 304 lb.

**FEATURES**

- Color: Black and platinum
- Steel door with glass
- Top or rear smoke exit
- Outside Air System
- Soapstone top plate
- Soapstone baking compartment

*Does not include 4” pipe outside*
### RAIS VIVA L 100 GAS WITH SIDEGLASS

#### TECHNICAL DATA:

**HEAT**
- BTU output: 31 kBTU
- Heat range (min-max): 12-31 kBTU
- Heating capacity (25-68 degrees F): 970 sq.ft
- Emissions: n/a g/hr
- Efficiency: 78+%%

**DIMENSIONS (Ø-H)**
- Stove exterior: Ø 18.5 - 39.4 inches
- Firebox interior: 14.5 - 9.6 - 17.5 inches
- Log length: gas log set inches
- Pipe diameter: 6 inches
- Distance from center of top exit to the back edge of the top plate: 9.2 inches
- Distance from floor to center of top exit: 37.7 inches
- Distance from floor to center of rear exit: 32.7 inches
- Center pipe in top to back edge of stove: 9 inches
- Floor to center of outside air connector (Ø 4”/100 mm): 4.75 inches

**DISTANCES TO FLAMMABLE MATERIAL**
- Distance to combustible side wall: 6 inches
- Distance to combustible back wall: 2 inches
- Corner Clearance to combustible: 4 inches
- To non-flameable wall and at sides and back we recommend: 2 inches

**WEIGHT**
- Stove: 309 lb.
- Top Plate: 25 lb.

**FEATURES**
- Color: Black, platinum or nickel
- Steel Side
- Steel Door with Glass
- Top or Rear Smoke Exit

---

### RAIS VIVA L 100 GAS WITHOUT SIDEGLASS

#### TECHNICAL DATA:

**HEAT**
- BTU output: 31 kBTU
- Heat range (min-max): 12-31 kBTU
- Heating capacity (25-68 degrees F): 970 sq.ft
